

PRODUCT CATALOG 2011

WELCOME

“Research, quality and 30+ years of caring for your reptiles, the way we care for our own.”

First of all, we would like to thank you for making Zoo Med the #1 Reptile products manufacturer world-wide. We continuously strive to bring you the best quality products for the proper care of your beloved pets and trust that you continue to find enjoyment in keeping reptiles.

We have been working diligently on a variety of new products from the new Reptihabitat kits to the Gourmet foods. We develop these products from a personal passion for keeping and breeding reptiles.

We hope you enjoy this new catalog and all the products within it. You will notice that throughout this catalog we have included more information and recommendations on the usage of our products. Feel free to send us your questions and comments as we look at each one and take your feedback seriously.

Again, thanks for your support.

“It’s hard to believe in a time when most consumers are complaining, I have found a company and representative that have put this much attention on standing behind the product. I am really impressed..”

Melinda

“I’m just writing to inform you that I am very pleased with my Zoo Med products. I have found that they outlast and out-perform similar brands. So, thank you and keep up the good work.”

Tina

“Wow and double wow! I knew I liked your products and now I know your customer service is wonderful, thank you.”

Steve

“Just wanted to pass along our praises for the multitude of products you produce to help me feed and maintain healthy and happy reptiles and amphibians. Your products are second to none.”

NATURALISTIC TERRARIUM

NATURALISTIC TERRARIUMS

EXCLUSIVE:

FULL STAINLESS STEEL SCREEN TOP will not corrode and accommodates a Dome Clamp Lamp Fixture (No plastic bar in the way). Special screen keeps feeder insects in while allowing greater UVA and UVB penetration throughout the terrarium.

EXCLUSIVE:

- FULL FRONT glass opening door with snap closure.

TEMPERATE SETUP

SETTING UP A TERRARIUM

1 Thoroughly rinse and clean your Naturalistic Terrarium. Suction cup the waterfall pump to the bottom glass, towards the back corner as shown. Next insert the Natural Tile background of your choice. Feed the power cord from the water pump behind the background. The electrical cord can be fed through the cord groove in the back corners of the terrarium lid.

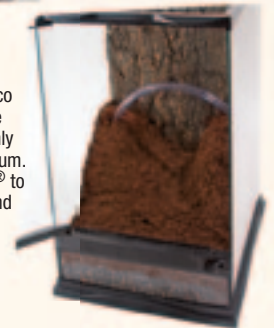

2 Thoroughly rinse your HYDROBALLS® to remove dust and debris. Distribute HYDROBALLS® evenly across bottom of terrarium. The waterfall pump must be submerged completely in the HYDROBALLS® for proper function (2"-3" (5-8 cm) layer). Be sure the tubing from the pump is positioned upright to allow you to build the waterfall.

3 Cut a small hole in the Terrarium Mesh to allow the Waterfall tubing to be fed through the mesh. Lay Terrarium Mesh flat. Zoo Med's Black Silicone is a great way to secure Terrarium Mesh and other décor inside your terrarium.

4 Add at least 1.5" (4 cm) of moistened Eco Earth® on top of the Terrarium Mesh and evenly spread throughout terrarium. Add additional Eco Earth® to create natural mounds and contour the landscape.

5 Guide the Waterfall hose to the desired position and anchor it to Mopani Wood, rocks, or other terrarium décor. Be sure the hose is securely fastened in place before moving to the next step.

6 Once your Waterfall is built, the next step is to add additional terrarium accents to beautify your terrarium. Zoo Med offers an entire line of Naturalistic Flora plants that bring your terrarium to life. Terrarium Moss, Frog Moss and New Zealand Sphagnum Moss are a great choice for a "substrate topper". These mosses are an attractive addition and function as a medium to retain humidity in your tropical terrarium.

7 Once your terrarium has been built, the next step is to start the waterfall. Treat all water with ReptiSafe® Water Conditioner before adding to terrarium. Add water slowly to your terrarium until the waterline reaches the top layer of HYDROBALLS®. Once the water is added, you can plug the water pump in to start the waterfall.

WATERFALL KIT
Item# WK-10 (see page 8)

Follow this easy step-by-step guide to creating a tropical waterfall terrarium

Zoo Med's Waterfall Kit can be used to build a beautiful tropical terrarium. The concept behind the Waterfall Kit is quite simple, and if set-up properly, uses a very natural process of percolation to highlight your terrarium. HYDROBALLS® are used to create an underground "aquifer". The terrarium holds enough water to be pumped by the water pump to the top of the terrarium. The pump simply drops water over a terrarium decoration such as Mopani Wood. The water naturally runs down the wood and percolates through the different substrate layers back to the pump. This system keeps water moving and is perfect for retaining humidity. The Waterfall Kit is designed to let the hobbyist create their own Natural Living Terrarium.

NEW!

A. REPTIBREEZE™

Open air aluminum screen cage.

- Great for small species of Old World Chameleons, Juvenile Green Iguanas and other arboreal species of lizards, such as Geckos, Anoles, etc...
- Large front door for easy cage access and bottom door for easy substrate removal.
- Beautiful corrosion-resistant black anodized aluminum screen cage.
- All hardware included; easy to assemble using only a screwdriver.

Item# NT-10 16" x 16" x 20"
(41 x 41 x 50 cm)

Item# NT-11 16" x 16" x 30"
(41 x 41 x 76 cm)

Item# NT-12 18" x 18" x 36"
(46 x 46 x 91 cm)

Item# NT-13 24" x 24" x 48"
(61 x 61 x 122 cm)

NEW!

B. IGUANARIUM™

Open air cage for large arboreal lizards such as medium to sub-adult Iguanas and Old World Chameleons.

- New Design!
- PVC (Plastic) coated wire to help prevent nose rubbing.
- Front and top opening doors for easy animal access.
- 4 casters (wheels) to move cage outside for natural sunlight.
- Removable "basking" shelf included.

Item# IA-30 Large Size
36" x 18" x 48" (91 x 46 x 122 cm)

C. TORTOISE HOUSE

A Home for Your Pet Tortoise or Box Turtle.

- Wood sided (for privacy) design preferred by professional tortoise keepers.
- Use indoors/outdoors. Place outside in garden to provide beneficial sunlight/UVB rays.
- Includes: Private weatherproof "sleeping" area and lockable wire safety cover.
- Easy to assemble.
- Modular-Remove end panel and connect a second Tortoise House to double the space!

Item# TTH-1 36" x 24" x 12"
(91 x 61 x 30.5 cm)

D. TORTOISE PLAY PEN

Outdoor Shelter, Exercise Pen and Food Grazing Enclosure for Tortoises.

- Place on your lawn and watch your tortoise feed on beneficial grass.
- Allows your tortoise to absorb natural UVB rays from sunlight, very important for their health and shell growth.
- Complete with "private sleeping area."
- Easy to assemble.

Item# TPP-1 19" x 16" x 39"
(48 x 41 x 99 cm)

NEW!

E. TURTLE TUB™

Zoo Med's Turtle Tub™ replicates the natural "pond" environment that aquatic turtles naturally live in.

- Built in land/water area.
- Large land area allows natural basking and egg laying behavior.
- Dark walls help in reducing stress.
- Lightweight and easy to clean.
- Made from 100% recycled plastic.

Item# TT-40

NEW!

F. TURTLE TUB™ KIT

Kit includes:

Turtle Tub™, Reptile Lamp Stand, POWERSUN® UV & heat lamp, Mini Deep Dome Lamp Fixture, 511 Turtle Clean Canister Filter, ReptiSafe® 8 oz. (.23 L), Eco Earth® 8 qt. (7.5 L), Forest Floor 8 qt. (7.5 L), Natural Bush plastic plant, Turtle Bone (2 cuttlebones), Red Shrimp 0.5 oz. (14 g), Aquatic Turtle Food (growth) 7.5 oz. (212 g), Water Turtle Care Book.

A./B. NATURAL CORK/FOREST TILE BACKGROUND

Create a naturalistic forest look in your terrarium

- Natural Cork panels for terrarium/vivarium backgrounds.
- Perfect for high-humidity environments. Highly resistant to mold or mildew.
- Precut to fit Zoo Med's NATURALISTIC TERRARIUM or can be cut for custom sizes.
- Use several panels for large enclosures.

A. NATURAL CORK TILE BACKGROUND

Item# NCB-1 Fits 12" X 12" (30 x 30 cm)

Item# NCB-2 Fits 12" x 18" (30 x 46 cm)

Item# NCB-3 Fits 18" x 18" (46 x 46 cm)

Item# NCB-4 Fits 18" x 24" (46 x 60 cm)

B. NATURAL FOREST TILE BACKGROUND

Item# NWB-1 Fits 12" X 12" (30 x 30 cm)

Item# NWB-2 Fits 12" x 18" (30 x 46 cm)

Item# NWB-3 Fits 18" x 18" (46 x 46 cm)

Item# NWB-4 Fits 18" x 24" (46 x 60 cm)

C. NATURALISTIC TERRARIUM LIGHT BAR

Mount lamps inside your terrarium!

- Light bar mounts inside Zoo Med's NATURALISTIC TERRARIUM eliminating the need for bulky external light fixtures.
- Three mounting locations! Mount up to 3 light fixtures in three locations on one light bar.
- Includes one ceramic fixture, one light bar, and mounting hardware.
- Includes ON/OFF switch for greater convenience.
- For lamps up to 60 watts.

Item# NT-L12 12" (30 cm)
(fits NT-1, NT-2)

Item# NT-L18 18" (46 cm)
(fits NT-3, NT-4)

D. NATURALISTIC TERRARIUM WATERFALL KIT

Kit includes:

- Water pump
- HYDROBALLS®
- Terrarium Mesh
- Plastic tubing & plastic elbow
- Instruction book

Item# WK-10

E. NATURALISTIC TERRARIUM SUBSTRATE MESH

- Non-toxic mesh for use in terrariums above the HYDROBALLS® layer to allow proper water drainage, keeping substrates from mixing and contaminating the water/filtration system.
- Excellent for use with waterfall applications.
- For larger terrariums use multiple pieces to cover terrarium floor.

Item# NT-M12 12" x 12" (30 x 30 cm)

Item# NT-M18 18" x 18" (46 x 46 cm)

F. NATURALISTIC TERRARIUM REPTI LOCK

Keep your pets and children safe!

- Easy to operate!
- Three position tumbler can be set to any desired combination.
- Designed for use with Zoo Med's NATURALISTIC TERRARIUMS.

Item# NT-TL

B

C

D

E

F

A. REPTI SHELTER™

This 3 in 1 cave can be filled with TERRARIUM MOSS™ or ECO-EARTH® to provide a humid micro-climate for shedding, hiding, or egg laying. Durable resin construction means that it can easily be washed and sterilized, and the removable lid makes it easy to check on your animals or remove eggs. Available in three sizes to accommodate many popular reptile species.

Item# RC-30 Small
Item# RC-31 Medium
Item# RC-32 Large*

B. NATURALISTIC TERRARIUM MUSHROOM LEDGE

- Naturalistic Mushroom Ledge for Terrariums.
- Create an elevated perch for reptiles and amphibians!
- Includes silicone adhesive for attaching to terrarium wall.

Item# TA-50 Small 4 1/2" x 7" (11.5 x 18 cm)
Item# TA-51 Large 6" x 12" (15 x 30 cm)

C. SILICONE RUBBER

- For attaching backgrounds, ledges, plastic plants or vines in naturalistic terrariums.
- Creates a waterproof seal.
- Safe for fresh and saltwater fish, reptiles, and amphibians.
- Use for repairing leaks in terrariums or aquariums.
- Does not contain harmful mold inhibitors.

Item# TA-1

D. NATURAL CORK FLATS

- Ideal for use as a natural decorative background for your terrarium.
- Attach live plants to cork to create a truly natural environment!
- Floats! Can be used as a "Floating Raft" for aquatic turtles, newts, aquatic frogs, mudskippers, etc.
- Safe for all reptiles, amphibians, and arachnids (i.e. Tarantulas).
- Can be easily cut to any desired length or shape! Use two or more pieces for large terrarium backgrounds.

Item# CF8-S Small Flat
Item# CF8-M Medium Flat
Item# CF8-L Large Flat
Item# CF8-X X-Large Flat
Item# CF8-J Jumbo Flat

E. NATURAL CORK ROUNDS

- Create a naturalistic forest look in your terrarium.
- Half-rounds can be used as natural hiding places & shelters.
- Full-rounds can be used as shelters (lying horizontal); or plant holders (standing upright).
- Safe for all reptiles, amphibians, and arachnids (i.e. tarantulas).
- Can be easily cut to any desired length or shape!

Item# CF9-S Small Round
Item# CF9-M Medium Round
Item# CF9-L Large Round
Item# CF9-X X-Large Round
Item# CF9-J Jumbo Round

F. MOPANI WOOD

- A beautiful African hardwood for aquariums or terrariums.
- Smooth surface, textured detail, and unique mottled color adds interest and enrichment to habitats.
- One of the hardest and densest woods available; sinks immediately in aquariums and resists rotting.

Item# MW-S Small 6"-8" (15-20 cm)
Item# MW-M Medium 10"-12" (25-30 cm)
Item# MW-L Large 16"-18" (15-20 cm)
Item# MW-J Jumbo 20"-24" (15-60 cm)

(with Feeding Door)

NEW!

B. ADJUSTABLE SNAKE HOOK

Ideal for:

- Moving small snakes.
- Collecting small snakes in the wild.
- Moving cage furniture in your terrarium to inspect condition of your animals.

Features:

- Fully collapsible-adjusts from 7 1/4 to 26" (18 to 66 cm).
- Fits into pocket when collapsed.
- Easy grip handle.

Item# TA-25 7 1/4 x 26" (18 x 66 cm)

C. ARBOREAL LAGOON™

A mesh netting "hammock" with a built-in removable water or food bowl that attaches to the upper corner of your terrarium. Utilizes wasted sides of terrarium by adding more climbing space. Helps prevent drowning of live food items.

Use Zoo Med's LIZARD LADDER™, or MOPANI WOOD so your animals can get up to the lagoon!

Item# AL-10 Medium Size

Item# AL-15 Large Size

D. LIZARD LADDER™

A soft nylon mesh that attaches to the back wall of your terrarium to give your reptiles more space to climb. Combine with Zoo Med's REPTI HAMMOCK™ and ARBOREAL LAGOON™ to create a whole 3-D living space.

Item# SP-10

E. REPTI HAMMOCK™

A soft nylon mesh which provides a lofty, yet accessible multi-dimensional perch. Create an arboreal resting place on the slippery sides of your glass or acrylic terrarium. Use together with Zoo Med's LIZARD LADDER™ for easier access and more living space for your animals.

Item# SP-21 Small Size 14 1/5" (36 cm)

REPTICARE® ROCK HEATERS™

Question: Why use Rock Heaters?

Answer: In nature the sun beats down on rocks and pavement (roads) and many species of reptiles will take advantage of this heat during the day or early evening to help "heat-up" their digestive tract and facilitate food digestion. The REPTICARE® ROCK HEATER replicates this "heated stone" feature found in nature and is very useful for reptiles that eat large meals (i.e: mice and rats) like Pythons, Boas, Monitor Lizards, Tegus, etc.

A. REPTICARE® ROCK HEATER

- New improved insulated nichrome wire element that creates even heat throughout the rock with no "hot spots."
- Washable surface to help prevent harmful bacteria build up.
- The only rock heater with a full coverage, completely encapsulated heating element.
- The only rock heater made with a custom 100% hydrated rock material that is twice as strong as cement or pumice.
- Available in Santa Fe Red.

Item#	RH-2	Mini Size	(5 watts)
Item#	RH-1	Standard Size	(10 watts)
Item#	RH-3	Giant Size	(15 watts)

B. REPTICARE® DELUXE ROCK HEATER WITH RHEOSTAT CONTROL

- REPTITEMP® control device allows adjustment of the rock heater's surface temperature with a simple turn of a dial!
- New improved insulated nichrome wire element that creates even heat throughout the rock with no "hot spots."
- The only rock heater with a full coverage, completely encapsulated heating element.
- The only rock heater made with a custom 100% hydrated rock material that is twice as strong as cement or pumice.
- Available in Quarry Stone Gray.

Item#	RH-9	Standard Size	(Max. 12 watts)
Item#	RH-10	Giant Size	(Max. 17 watts)

C. REPTI HEAT CAVE™

A Natural Looking Heated Cave for Reptiles to Bask on or Hide in

- Insulated nichrome wire element that creates even heat throughout the cave top with no "hot spots".
- 100% hydrated rock material that lasts up to twice as long as ordinary cement and up to 10 times longer than pumice!
- Washable surface to help prevent harmful bacteria buildup.
- Cave top can be removed and used solely as a ReptiCare® Rock Heater if your animal outgrows the cave.
- Low wattage with UL rating for safety.

Item# RH-8

D. REPTITEMP® 500R REMOTE SENSOR THERMOSTAT

Remote Sensor Thermostat

- Automatically adjusts terrarium temperatures.
- Built-in dual plug receptacles control up to two heating devices at once.
- Includes 6' (1.8 M) sensor cable, safety cover and instruction book.
- Use with ceramic heat emitters, reptile heat pads, infrared heat lamps and other types of reptile heating devices. (Not for use with Rock Heaters).

Item# RT-500R

E. REPTITEMP® RHEOSTAT

For manual heat control

- Allows you to plug in up to two reptile heating devices and then manually adjust their temperature with the turn of a knob.
- Turn heaters up in winter or down in summer depending on your inside house temperatures.
- Excellent for non-thermostatically controlled devices such as: rock heaters, heat caves, heated cable and all overhead incandescent heat bulbs up to 150 watts total.

Item# RT-10

Helpful Hints:

- A rock heater should never be the sole source of heat at any time in any enclosure.
- Never cover or bury the rock heater with anything.
- If your reptile never leaves the rock heater, then your terrarium is too cold and you need an additional heat source. (i.e. a Ceramic Heat Emitter or ReptiTherm® UTH heater.)

PRECISION ANALOG GAUGES

Zoo Med's Precision Analog Gauges are of professional breeder quality, with many features not found in cheap imported gauges. Features include: European-made precision German movement, side-venting to prevent against "fogging" inside the thermometer, and Velcro® backing enabling you to remove the gauge for terrarium cleaning and maintenance.

D

E

F

G

NEW!

A. HYGROTHERM™

- Humidity and temperature controller in one!
- Great for use with Zoo Med's REPTIFOGGER™.
- Controls up to 1000 watts of combined temperature and humidity control devices.
- Nighttime temperature drop feature controlled by photocell.
- Controls temperature by turning on heating devices in "HEAT" mode or by turning on cooling devices.
- Alarm flashes when temperature or humidity reaches extreme high or low levels.
- Built in memory stores settings in case of power failure.
- Temperature control range: 50°F to 122°F (10°C to 50°C).
- Humidity control range: 15% to 95% RH (Relative Humidity).

Item# HT-10

NEW!

B. DUAL ANALOG THERMOMETER & HUMIDITY GAUGE

- Allows precise monitoring of both the temperature and humidity of your terrarium from one unit.
- Temperature and humidity levels are extremely important for the long term health of your animals.
- Velcro® backing enables easy removal for cleaning or relocation.

Item# TH-27

C. DIGITAL TERRARIUM THERMOMETER™

- Wet or dry—ideal for terrariums, aquariums or reptile incubators.
- Temperature range from -10° to 140° F (-23°C to 60°C).
- 39" long temperature probe for pinpoint accuracy.
- Battery and mounting suction cups included.

Item# TH-24

D. HIGH RANGE THERMOMETER™

- Liquid crystal thermometer for all types of enclosures.
- Ranges from 70° to 105° F (21° to 40° C) with easy to read crystal coloring.

Item# TH-10

E. PRECISION ANALOG THERMOMETER™

- Extreme temperature range from 20° to 120° F (-6° to 49°C) for precise temperature monitoring.

Item# TH-20

F. PRECISION ANALOG HUMIDITY GAUGE™

- Accurately reads the amount of water vapor saturation (humidity) in the air of your terrarium.
- Range is from 0 to 100%.

Item# TH-21

G. PRECISION ANALOG THERMOMETER & HUMIDITY GAUGE™

- Allows for the monitoring of temperature and humidity of your terrarium with one unit.
- Thermometer scale: 20° to 120°F (-6° to 49°C). Humidity Scale: 0 to 100%.

Item# TH-22

Nightlight Red™

- 60 W Nightlight Red™ bulb.
- True red glass 24 hour heat lamp.
- Perfect "Nightlight" bulb for viewing the nocturnal behavior of your animals.
- European quality for long lasting burn life.

Item# DBC-1

LIGHTING

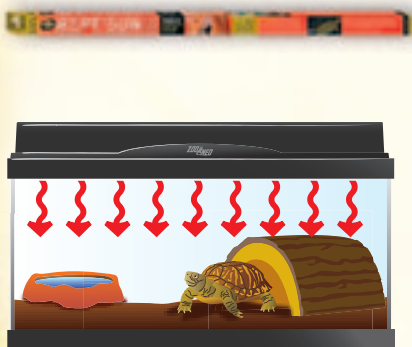

ZOO MED'S REPTILE LIGHTING SELECTION GUIDE

Reptile health is dependent on an interconnected cycle of a varied diet, proper heat regimes and supplementation of calcium and vitamins. Most reptiles require exposure to UVB to produce vitamin D₃. Vitamin D₃ is essential for the uptake of calcium from their diet. The sun provides UVB in nature, however, in your home you will need to provide UVB with specialty lighting designed for reptiles. There are many lamps available for reptiles in your local pet store. Some lamps produce UVB, some produce UVA, and others produce heat. Some lamps even produce UVB, UVA and Heat. Not all lamps are created equal, so go with the company you can trust: ZOO MED!

UVB PRODUCING LAMPS

OTHER REPTILE LAMPS-NO UVB USED FOR BASKING HEAT OR GENERAL LIGHTING

REPTISUN® 5.0 UVB - TROPICAL
6-12" (15-30 cm) Recommended distance from lamp to animal.

SPECIES: Chameleons, turtles, tropical tortoises, amphibians, snakes.

Also recommended for small enclosures where minimal penetration of light is needed.

REPTISUN® 10.0 UVB- DESERT
6-20" (15-51 cm) Recommended Distance from lamp to animal.

SPECIES: Bearded Dragons, Uromastix, agamids, other species of desert lizards and tortoises.

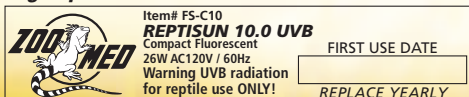

Also recommended for large enclosures where deeper penetration of light is needed.

POWERSUN® UV
6-18" (15-46 cm) recommended distance from lamp.

SPECIES: Bearded Dragons, Uromastix, tortoises, basking lizards, monitors, and more. Produces UVA/UVB and basking heat!

Look for the "First Use Date" box on REPTISUN® lamps or sign up for the UVB reminder at www.zoomed.com

- Replace UVB lamps each year.
- We recommend keeping all UVB producing lamps at least 6" (15 cm) from your animal. Distances less than 6" (15 cm) can be harmful.
- Monitor temperatures, don't guess!

THE LEADER IN

UVB LIGHTING

BULLETIN
of the
Chicago Herpetological Society

"Of all the lamps measured, the best contributor to vitamin D₃ photosynthesis in skin is Zoo Med's REPTISUN®."

"The second best lamp, a Zoo Med's REPTISUN® unit that had been used for 10 months, does not show remarkable weakening of UVB radiation."*

"The rest of the measured lamps are disappointing in their D₃ Yield Indexes. Even the best of these units have an index figure that is only 5% of that of the REPTISUN® unit. Lamps in this group cannot be recommended for use as UV lamps with a purpose to promote vitamin D₃ photosynthesis in the skin."*

DON'T BE FOOLED: Other lamps may not provide necessary UVB, and can actually cause vitamin D₃ to break down.

Go with the name you trust, ZOO MED!

Safe and effective UVB LIGHTING for all

*Lindgren, J. 2004. UV-lamps for terrariums: Their spectral characteristics and efficiency in promoting vitamin D₃ synthesis by UVB irradiation. *Herpetomania* 13(3-4).

Compact Fluorescent Bulbs

REPTISUN® 5.0 UVB Fluorescent Bulb

REPTISUN® 10.0 UVB Fluorescent Bulb

REPTILE UVB LAMPS

LINEAR FLUORESCENT LAMPS

Zoo Med's linear fluorescent UVB lamps are made in Germany with the highest quality UVB transmitting quartz glass, and beneficial UVB emissions lasting a full twelve months! The UVB emissions from these lamps will help to prevent or reverse metabolic bone disease in captive reptiles. In addition to UVB, Zoo Med's REPTISUN® and POWERSUN® lamps also emit beneficial UVA wavelengths which stimulate feeding, reproduction, and natural behavior patterns in reptiles, amphibians, and birds.

RADIOMETER**

Use this meter to test the relative decay of UVB in a given lamp over time. Zoo Med's Radiometer reads in microwatts per square centimeter. This tool lets you determine when it is time to replace your fluorescent UVB lamps.

Item# ST-6

This item available on our website at:
www.zoomed.com

A. REPTISUN® 5.0 UVB

The award winning industry standard UVB lamp for reptiles. A full 5% UVB output allows vitamin D₃ synthesis to occur naturally, preventing or reversing MBD and other health problems in turtles and tortoises, Bearded Dragons, Iguanas, and all other diurnal reptiles. The REPTISUN® 5.0 is effective for UVB induced photoconversion of vitamin D₃ in reptiles' skin at distances up to 12"/30 cm. Accept no substitutes; get the original reptile UVB lamp: Zoo Med's REPTISUN® 5.0.

Item# FS-15 15" (381 mm) 14 Watt
Item# FS-18 18" (457 mm) 15 Watt
Item# FS-24 24" (610 mm) 17 Watt
Item# FS-36 36" (914 mm) 25 Watt
Item# FS-48 48" (1219 mm) 32 Watt

B. REPTISUN® 10.0 UVB

Emits UVB a full 20"/51 cm from the surface of the lamp to prevent or reverse metabolic bone disease. (Compared to 12"/30 cm on the REPTISUN® 5.0). Optimal for use with larger terrariums where greater than 12" of UVB penetration is needed. The REPTISUN® 10.0 is also recommended for use above screen covers which can filter out up to 50% of the UVB wavelengths.

Item# OS-18 18" (457 mm) 15 Watt
Item# OS-24 24" (610 mm) 17 Watt
Item# OS-36 36" (914 mm) 25 Watt
Item# OS-48 48" (1219 mm) 32 Watt

C. REPTISUN® SELF BALLASTED COMPACT FLUORESCENT LAMPS

REPTISUN® 5.0 UVB tropical

- Perfect for all tropical species of reptiles and amphibians.
- 5% UVB Output, 30% UVA Output, FULL SPECTRUM.

REPTISUN® 10.0 UVB desert

- Perfect for all desert and basking reptiles.
- 10% UVB Output, 30% UVA Output, FULL SPECTRUM.

The new REPTISUN® Compact Fluorescent Lamps use a special UVB transmitting quartz glass for maximum UVB penetration. Energy efficient compact fluorescent lamps screw into standard threaded sockets, eliminating the need for a separate ballast. Lamp can be oriented either vertically or horizontally in your reptile hood or clamp lamp fixture. UVB emissions help prevent or reverse metabolic bone disease and UVA increases feeding, mating, and other natural behaviors.

Item# FS-C5 REPTISUN® 5.0 26 Watt*

Item# FS-C10 REPTISUN® 10.0 26 Watt*

*26 Watt = 130 Watt Standard Incandescent (light output)

D. POWERSUN® UV

Self-Ballasted Mercury Vapor UVB Lamp

- Provides essential UVA, UVB, light and heat all in one lamp!
- The preferred UVB lamp choice among zoos, veterinarians, and professional herpetologists.
- Self-ballasted: screws into a standard Clamp Lamp fixture with a ceramic socket.
- Use to prevent (and treat) metabolic bone disease in reptiles.
- * Make sure that the lamp fixture has a ceramic socket and is rated for the appropriate wattage.

Item# PUV-11 100 Watt

Item# PUV-10 160 Watt

FOR USE WITH REPTISUN® LINEAR FLUORESCENT LAMPS

NEW!

A. HEAT & UVB COMBO PACK

Includes:

Repti Basking Spot Lamp

- 100 W Basking Spot Lamp.
- The #1 selling "basking lamp" for all types of reptiles.
- Patented computer designed "double reflector" focuses 25% more light/heat in the beam than other reflector bulbs.
- Lasts up to 2,000 hours.

5.0 UVB Compact Fluorescent

- Self-ballasted Compact Fluorescent UVB lamp for reptiles and amphibians.
- Helps prevent Metabolic Bone Disease commonly seen in captive reptiles at 6-12 months of age.
- Provides UVB for vitamin D production and calcium metabolism.
- Lamp emits UVA which is seen by reptiles and helps to increase activity levels, appetite, and reproductive behaviors.

Item# FSC-1

B. REPTI HALOGEN™

- Another "first" from Zoo Med! High quality halogen spot lamps specifically made for use with reptile terrariums!
- Halogen technology increases burn life and the crisp bright white light will make animals' colors appear richer.
- New, improved rough service design.

Item#	HB-50	50 Watt
Item#	HB-75	75 Watt
Item#	HB-100	100 Watt
Item#	HB-150	150 Watt

C. TURTLE TUFF™ SPLASHPROOF HALOGEN LAMP

- Heavy duty "splash proof" halogen lamp.
- For use with all types of aquatic turtles or other water based terrarium animals.
- Long lasting: average 2500 hour bulb life.
- Makes animals' colors appear richer.

Item#	OH-50	50 Watt
Item#	OH-75	75 Watt
Item#	OH-90	90 Watt

D. NATURESUN™

- NatureSun™ has a high C.R.I. (Color Rendering Index) of 98!
- Brings out the color in your animals for optimum viewing.
- Perfect for animals that do not have high UVB requirements like snakes or amphibians.
- Provides UVA and visible light but no UVB.

Item#	ES-15	15" (381 mm)	14 Watt
Item#	ES-18	18" (457 mm)	15 Watt
Item#	ES-24	24" (610 mm)	17 Watt
Item#	ES-36	36" (914 mm)	25 Watt
Item#	ES-48	48" (1219 mm)	32 Watt

E. REPTISUN® TERRARIUM HOOD

- Low profile hood fits terrariums 20" (51 cm) wide and up (10 gallons or larger).
- UVB is needed for growth and strong bones. Prevent or reverse Metabolic Bone Disease by using this hood with a REPTISUN® 5.0 or 10.0 UVB linear fluorescent lamp (pg.16).
- Now available in three sizes.

Item#	LF-60	20" (51 cm)	holds 18" (46 cm) lamp
Item#	LF-62	30" (76 cm)	holds 24" (61 cm) lamp NEW!
Item#	LF-63	36" (91 cm)	holds 36" (91 cm) lamp NEW!

POLISHED ALUMINUM DOME INCREASES LIGHT AND UV OUTPUT UP TO 30%

A. DEEP DOME LAMP FIXTURE™

- Extra long reflector dome extends beyond the face of the lamp, preventing the lamp from "sticking out".
- Perfect for use with Zoo Med's POWERSUN® UV lamps and REPTISUN® UVB Compact Fluorescent lamps.
- Highly polished aluminum inside the dome greatly increases UVB & UVA output!
- Ceramic base! For use with lamps up to 160 watts.

Item# LF-17

NEW!

B. MINI DEEP DOME LAMP FIXTURE™

- Extra long reflector dome that extends beyond the face of the lamp, preventing the lamp from "sticking out".
- Ceramic socket: for use with lamps up to 100 watts.
- Polished aluminum dome for maximum light and heat output.
- On/off switch allows easy control of lighting device.

Item# LF-18

NEW!

C. MINI COMBO DEEP DOME LAMP FIXTURE™

- Two fixtures in one for maximum convenience.
- Dual fixture allows for one Basking Spot Lamp or 100 W POWERSUN® UV lamp and a Nightlight Heat lamp.
- Polished aluminum domes for maximum light and heat output.
- Includes dual on/off switches for greater convenience.
- Patented Zoo Med design.

Item# LF-19

D. PROFESSIONAL SERIES DIMMABLE CLAMP LAMP

- Includes on/off Dimmer Switch.
- Great for reducing light/heat output on all types of incandescent lamps.
- Rated up to 150 Watts.

Item# LF-13 8 1/2" (22 cm)

Item# LF-16 10" (25 cm)

E. DELUXE PORCELAIN CLAMP LAMP™ & DELUXE PORCELAIN BROODER LAMP™

Zoo Med's most popular Clamp Lamp fixture is available in three sizes: 5 1/2" (14 cm), 8 1/2" (22 cm), or 10" (25 cm) diameter domes. Made of heavy gauge painted aluminum. All three models have a ceramic socket, and can be used with the Clamp Lamp Safety Cover to protect your bulbs, animals, and home.

Item# LF-11 5 1/2" (14 cm) Reflector (rated up to 100 watts)

Item# LF-12 8 1/2" (22 cm) Reflector (rated up to 150 watts)

Item# LF-15 10" (25 cm) Reflector (rated up to 250 watts)

LIGHTING FIXTURES AND ACCESSORIES

A

B

(PUV is on page 18)

Zoo Med recommends using a Reptile Lamp Stand with the POWERSUN® UV self ballasted mercury vapor lamp as these lamps must orient straight down, and not at an angle.

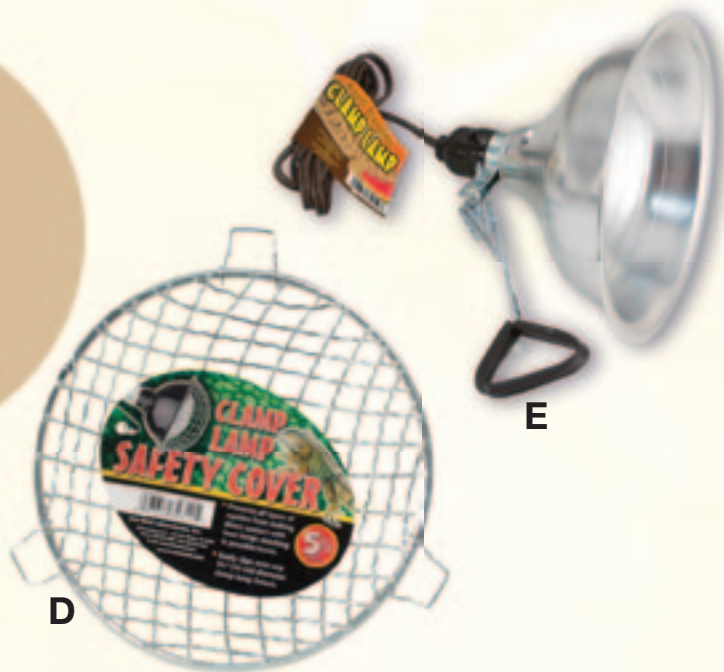

C

BEST FIXTURE FOR CERAMIC HEAT EMITTERS

(CE-100 is on page 12)

E

D

A/B. REPTILE LAMP STAND™

- Safely secures clamp lamp fixtures above your terrarium resulting in better lamp heat transfer and reducing the risk of fire from your clamp lamp in the event it comes loose from a "frame mount".
- Stable "foot" goes underneath terrarium so stand can not be knocked over.
- POWERSUN® UV lamps: Self ballasted mercury vapor lamps (i.e. POWERSUN® UV) must point straight down to prevent arc tube damage and premature burnouts.
- Adjustable knobs for height and length adjustment.
- Available in two sizes:

Item# LF-20 (Standard size-for all size terrariums)
max-height 38" (97 cm) max length 15" (38 cm)

Item# LF-21 (Small size-for 10-20 gallon terrariums)
max-height 24" (61 cm) max length 12" (30.5 cm)

C. WIRE CAGE CLAMP LAMP

Best clamp fixture for ceramic heat emitters.

- The "open wire cage design" prevents the accumulation of "back heat," making it the safest clamp lamp available for use with high-heat producing ceramic heat emitters.
- Versatile: Can be used with POWERSUN® UV mercury vapor lamps, basking spot lamps, infrared heat lamps and ceramic heat emitters **up to 150 watts**.
- UL approved for safety (when used with Zoo Med's Ceramic Heat Emitter) plus includes on/off switch and ceramic socket.

Item# LF-10

D. CLAMP LAMP SAFETY COVER

Easily clips onto most 5 1/2" (14 cm), 8 1/2" (22 cm), or 10" (25 cm) clamp lamp domes to provide additional safety. These galvanized steel covers will prevent children and pets from touching heat lamps and will help reduce the risk of fire in the event that a clamp lamp is knocked onto the ground. Available in 3 sizes.

Item# LFC-11 5 1/2" (14 cm)

Item# LFC-12 8 1/2" (22 cm)

Item# LFC-15 10" (25 cm)

E. REPTI ECONOMY CLAMP LAMP

- 8 1/2" (22 cm) inexpensive clamp lamp with aluminum reflector and 6' (182 cm) power cord.
- Use with Zoo Med's Daylight Blue™ or Nightlight Red™ lamps up to 100 Watts maximum (not for use with ceramic heat emitters, POWERSUN® UV lamps or any incandescent lamp exceeding 100 Watts).

Item# LF-5

-  *Water*

TIPS:

Always wash your hands before and after handling any reptile or amphibian. Never kiss your reptiles or place them in your mouth. Learn as much as you can about the reptiles you keep, by purchasing a good book on the species you're interested in. Provide fresh water daily. Always add ReptiSafe® to their water. Writing the date on your UVB bulbs will tell you when they need to be changed (we recommend changing every 12 months.)

INCUBATOR

NEW!

The Reptibator® gives breeders the ability to control temperatures and monitor humidity levels within the incubator.

NEW!

REPTIBATOR®

Digital egg incubator

- Digital controller with LCD display and LED heat indicator light.
- Pulse proportional thermostat for stable temperature regulation.
- Temperature control range from 59°F to 104°F (15°C to 40°C).
- Humidity Display range from 10%-95% relative humidity.
- Rigid 55 W heating element.
- Programmable temperature alarm.
- Built in memory stores settings in case of power failure.
- Clear cover allows for easy egg inspection without opening incubator.
- Multiple water reservoirs molded into incubator base. Flow-through ventilation and sponge insert allows for even evaporation and humidity levels within incubator.

Item# RI-10

INCUBATION ROOM

View a piece of Zoo Med's passion!

Zoo Med is made up of biologists and passionate hobbyists. In our facility we house over 90 species of reptiles, amphibians, fish and invertebrates. We don't sell these animals; these are our pets! You can see many images of these pets in our product packaging (such as the female Day Gecko holding her egg on the left).

This year we have had quite a successful breeding season and we've had several species laying eggs. We invite you to view a piece of Zoo Med's passion!

Please visit: www.zoomed.com/incubator

Reaching Turtle NIRVANA

We Don't Just Understand Turtles...We Breed Them

A. TURTLE TUB™ KIT

Kit includes:

Turtle Tub™, Reptile Lamp Stand, POWERSUN® UV & heat lamp, Mini Deep Dome Lamp Fixture, 511 Turtle Clean Canister Filter, ReptiSafe® 8 oz. (.23 L), Eco Earth® 8 qt. (7.5 L), Forest Floor 8 qt. (7.5 L), Natural Bush plastic plant, Turtle Bone (2 cuttlebones), Red Shrimp .5 oz. (14 g), Aquatic Turtle Food (growth) 7.5 oz. (212 g), Water Turtle Care Book.

Item# TT-40K

NEW!

B. TURTLE TUB™

Zoo Med's Turtle Tub replicates the natural "pond" environment that aquatic turtles naturally live in.

- Built in land/water area.
- Large land area allows natural basking and egg laying behavior.
- Opaque walls help in reducing stress.
- Lightweight and easy to clean.
- Made from recycled materials!

Item# TT-40

C. FLOATING TURTLE LOG™

The new natural looking Floating Turtle Log provides security, comfort, and stress reduction for aquatic turtles, newts, frogs, mudskippers, and tropical fish. The hollow resin log floats just at the surface so that turtles can bask on top of it or hide submerged inside. Bottom-weighting prevents the log from rolling over, even with two 4" (10 cm) turtles on top.

- Patent pending.

Item# TA-40

D. TURTLE DOCK™

Unique floating dock for aquatic animals to bask on. Self leveling feature automatically adjusts to all water levels. Submerged ramp allows turtles easy access to a dry basking area for maximum exposure to heat and UVB lamps. Available in 4 sizes to easily accommodate any size aquatic turtle.

- Patented.

Item# TD-5 Mini Dock

Item# TD-10 Small (10 gal. and up)

Item# TD-20 Medium (15 gal. and up)

Item# TD-30 Large (40 gal. and up)

Item# TDS-4 4-pack/suction cups

NEW!

E. DIGITAL AQUATIC TURTLE THERMOMETER

- Waterproof, completely submersible.

Item# TH-26

F. TURTLE HUT™

If you want the look of a natural log hiding place for your reptiles with the convenience, strength, and washability of resin, then Zoo Med's new TURTLE HUT™ is for you. Inert material means it won't mold and is easy to sterilize. It can be submerged in water for aquatic turtles, newts, and even shy fish or used on dry land for any species of reptile or amphibian.

Item# AH-S Small

Item# AH-M Medium

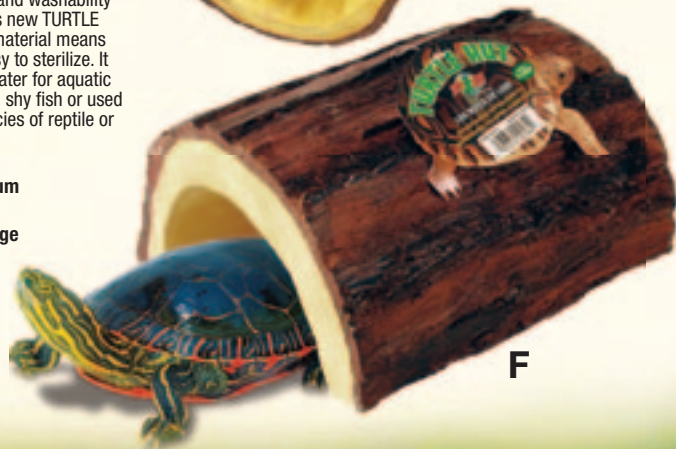

Item# AH-L Large

Item# AH-XL X-Large

Item# AH-G Giant

Vent holes allow the hut to fill with water, allowing it to remain submerged in aquatic habitats.

Mag Clip®
Item# MS-1

TURTLECLEAN™
Item# TC-32

Filter: always use a good filter for your turtle tank making sure the filter is *rated* for the size aquarium that you have.

Water: always change 20%-30% of your turtle tank's water each week.

Use Zoo Med's REPTI-SAFE® when setting up your tank or changing water.

Zoo Med prefers to use no substrate with "hard shell" aquatic turtles as gravel substrates can lead to impaction problems with turtles.

With soft-shell turtles you must use a sand substrate like Zoo Med's REPTISAND®.

D

"I love your new Grassland Tortoise food. Zoo Med really did it's research on this product. The only thing that can beat the natural ingredients and long fiber in your product would be moving my family and tortoise herd back to the tortoise's natural habitat! I can't say enough about it and I really want everyone with a tortoise to know about it."

Sincerely,
John Bailey
TSA member & noted tortoise breeder

Colored corn tortoise pellets should be fed as a "treat" only and never used as a regular tortoise diet.

NATURAL! NO ARTIFICIAL COLORS, FLAVORINGS, OR PRESERVATIVES ADDED.

* Pyramiding is NOT normal in most species, and is likely caused by poor diet (high protein/low fiber) and low humidity.

NEW!

NEW!

G. CRICKET CARE

- Finely ground gut-load for crickets being fed to reptiles.
- With added vitamins and minerals.

Crickets are an important food for insect-eating reptiles and amphibians. Live crickets sold for reptiles must eat a healthy diet in order to provide reptiles with the nutrients that they need. Crickets sold in stores are often underfed, or are fed poor quality foods that lack essential nutrients. Zoo Med's Natural Cricket Care™ provides a gut-load with essential nutrients for the optimum health of crickets and the reptiles that eat them.

Item# ZM-170 1.75 oz. (49.6 g)

Item# ZM-171 10 oz. (283 g)

H. BUGNAPPER®

- Catch FREE natural live insects to feed to your pet reptiles, amphibians or arachnids.
- Varies the diet for your animals just like in nature.
- Catch insect specimens for school science projects or bug hobby collections.
- Adjustable bug collection cup to catch different size bugs.
- Easy to empty "NO TOUCH" bug collection cup means you don't have to handle insects.
- Attracts bugs with a special long lasting, energy efficient compact fluorescent bug lamp.
- Catch flying insects day or night like: moths, beetles, gnats, flies, etc...
- Patent pending.

Item# BN-1 Bug Napper®

Item# PBN-01 Replacement Bug Lamp

VITAMINS & CALCIUM

A

B

REPTI CALCIUM™ AND REPTIVITE®:

Balanced calcium and multi-vitamin supplementation for all reptiles and amphibians. Offer REPTI CALCIUM™ and REPTIVITE™ in alternate feedings as directed.

Proper nutrition for reptiles and amphibians is dependent on many variables. Exposure to UVB helps animals produce Vitamin D₃ in their skin, while some animals obtain vitamin D₃ from their diet. Either way, vitamin D₃ is responsible for utilizing calcium within the diet. UVB, Vitamin D₃, heat, calcium and diet work together and are dependent on each other for balanced nutrition.

There is no prescribed rule for which animals need additional D₃, but a little research can help guide keepers in the right direction. For more information on UVB, Vitamin D₃ and calcium, please visit www.zoomed.com.

**CUSTOMER
FAVORITE**

General Recommendations:

Recommended Use: **With D₃**

- Diurnal species housed indoors (Bearded Dragons, Chameleons, turtles and tortoises).
- Can be offered occasionally to nocturnal animals.

Recommended Use: **Without D₃**

- Animals housed outdoors with direct exposure to sunlight for 10 hrs/day or more (i.e. Chameleons and tortoises housed outdoors).
- Reptiles that eat whole vertebrate prey (eg. mice).

**TO READ MORE ABOUT VITAMIN
D₃, UVB, UVA LIGHTING AND
REPTILES, PLEASE VISIT:
www.zoomed.com
-REPTILES & UVB REPORT**

Zoo Med's REPTI CALCIUM™ With or Without Vitamin D₃ is a phosphorus-free calcium supplement for reptiles and amphibians. We use only Precipitated Calcium Carbonate which is white in color and is essentially lead free. Impurities in other sources of calcium carbonate (e.g. Oyster Shell Calcium) cause the supplement to appear gray. With REPTI CALCIUM™, you can take comfort in knowing that your reptiles are getting a highly bioavailable source of calcium carbonate that is free of harmful impurities.

A. REPTI CALCIUM™ WITH D₃

Item# A34-3	3 oz.	(85 g)
Item# A34-8	8 oz.	(226.8 g)
Item# A34-12	12 oz.	(340 g)

Item# A33-12	12 oz.	(340 g)
Item# A33-48	4 lbs.	(1.36 kg)

Zoo Med is proud to offer REPTIVITE™, a complete vitamin, mineral, and amino acid complex specifically formulated for reptiles. REPTIVITE™ is calcium based to ensure healthy bone growth with the correct 2:1 calcium to phosphorus ratio. Originally developed for the San Diego Zoo to correct soft-shell problems in turtles, it is now used by some of the most respected zoos and animal parks throughout the world. The first reptile vitamin to include the complete amino acid complex, an essential component in protein digestion. REPTIVITE™ does not contain artificial additives or fillers like soy, yeast, or sucrose. Use 2-3 times weekly on your reptile's food.

E

F

A. REPTI TURTLE EYE DROPS

- Opens and cleans inflamed turtle eyes.
- Preventative for eye diseases caused by vitamin A deficiencies.
- Helpful with box turtle eye problems.

Item# MD-30 2.25 oz. (64 mL)

B. REPTI SHEDDING AID

Aids in removing dry sheds from snakes and lizards. REPTI SHEDDING AID conditions your reptiles' skin and provides a visible sheen. Long lasting! Works between sheds.

Item# MD-31 2.25 oz. (64 mL)

C. REPTI WOUND-HEALING AID

A topical antiseptic to help heal cuts, burns, and abrasions on reptiles. Can also be used to help heal topical infections on toads.

Item# MD-32 1 oz. (28 mL)

D. MITE OFF

Controls mites in captive reptile collections. MITE OFF contains colloids, small electrically charged molecules that can penetrate and disrupt simple organisms like mites. Completely non-toxic and safe for the water supply and environment (no EPA listed pesticide ingredients). MITE OFF has no effect on vertebrate species and other complex organisms including humans, reptiles, dogs, cats, and plants.

Item# MO-4 4.25 oz. (125.7 mL)

Item# MO-8 8.75 oz. (258.8 mL)

E. WIPE OUT 1™

Terrarium and small animal cage disinfectant, cleaner and deodorizer. It is ideal for cleaning, disinfecting and deodorizing terrariums and other animal enclosures. WIPE OUT 1™ kills *Salmonella choleraes* and *Pseudomonas aeruginosa* and can reduce the spread of bacterial infections among your animals.

(EPA Reg. No. 69814-4)

Item# WO-14 4.25 oz. (125.7 mL)

Item# WO-18 8.75 oz. (258.8 mL)

Item# WO1-32 32 oz. (946.4 mL)

F. REPTISAFE®

The first instant terrarium water conditioner. Great for reptile water bowls, chameleon drip water systems, amphibian enclosures, and aquatic turtle tanks. REPTISAFE® removes chloramines and chlorine, detoxifies ammonia and nitrites, and provides essential ions and electrolytes which help to hydrate newly acquired animals. Also stimulates slime coat development in amphibians and fish.

Item# WC-2 2.25 oz. (66.5 mL)

Item# WC-4 4.25 oz. (125.7 mL)

Item# WC-8 8.75 oz. (258.8 mL)

Item# WC-64 64 oz. (1.89 L)

NEW!

A. REPTIFRESH®

Odor Eliminating Substrate

- A natural mineral substrate that absorbs odors in the terrarium.
- GREAT FOR Bearded Dragons, Leopard Geckos, Iguanas, Hermit Crabs and many other species of reptiles.
- Can also be used as a "mix-in" with Zoo Med REPTISAND®, VITA-SAND® or Excavator® Clay Burrowing Substrate to help reduce odors.
- NATURAL COLOR-No added dyes or chemicals.
- Stimulates natural digging and burrowing behavior.

Item# R0-8 2.25 oz. (64 mL)

B. REPTISAND®

- Pure, very fine Quartz desert sand—excellent for all types of desert reptiles!
- Stimulates natural digging and burrowing behavior.
- Use for Bearded Dragons, Leopard Geckos, Uromastix lizards, soft-shell turtles, Sand Boas, Collared Lizards, Tarantulas, scorpions, etc...
- Available in 3 natural colors with no added dyes or chemicals.

Item#	SW-05	Desert White	5 lb. (2.5 kg)
Item#	SW-10	Desert White	10 lb. (5.5 kg)
Item#	SR-25	Desert White	25 lb. (11 kg)
Item#	SR-05	Natural Red	5 lb. (2.5 kg)
Item#	SR-10	Natural Red	10 lb. (5.5 kg)
Item#	SM-10	Midnight Black	10 lb. (5.5 kg)

C. VITA-SAND®

- All natural vitamin-fortified calcium carbonate substrate.
- Excellent substrate for Bearded Dragons, Uromastix lizards, Monitors, Geckos and other desert species of reptile.
- Fortified with vitamins and Beta Carotene for increased health benefits.
- Available in 6 natural colors.

Item#	VW-05	Sonoran White	(5 lb.) (2.5 kg)
Item#	VW-10	Sonoran White	(10 lb.) (5.5 kg)
Item#	VM-05	Mojave Mauve	(5 lb.) (2.5 kg)

Item#	VB-05	Baja Blue	(5 lb.) (2.5 kg)
Item#	VB-10	Baja Blue	(10 lb.) (5.5 kg)

D. EXCAVATOR®

Clay Burrowing Substrate.

- Allows reptiles to dig tunnels and burrows just like they do in nature.
- Watch your reptiles perform natural digging behaviors.
- You can mold and create multi-level terraces and burrows in your reptile's terrarium.
- Make your reptiles feel like they're "at home" in their natural habitat.
- EXCAVATOR® holds its shape so burrows and tunnels won't collapse.
- All Natural! No added dyes, colors, or chemicals.

Item#	XR-05	5 lb. (2.25 kg)
Item#	XR-10	10 lb. (5 kg)
Item#	XR-25	25 lb. (11 kg)

CAGE SUBSTRATES

A. REPTIBARK®

The #1 selling reptile bark worldwide! Naturally decorative.

- 100% pure fir bark. Provides your terrarium with that tropical rainforest look!
- Excellent substrate for tropical humidity loving reptiles.
- **Triple cleaning process to eliminate large sticks, dust and dirt.**
- Beneficial small size particles prevents crickets from hiding in substrate.
- REPTIBARK® is washable and re-usable.

Item# RB-4 4 qt. (4.4 L)
Item# RB-8 8 qt. (8.8 L)
Item# RB-24 24 qt. (26.4 L)

B. ASPEN SNAKE BEDDING

#1 Preferred snake bedding by professional herpetoculturists worldwide!

- No toxic oils like cedar and other similar wood shavings.
- Odorless, easy to clean, and 99.9% dust free!
- Provides a safe, naturalistic substrate that allows snakes, lizards and small animals to form burrows and nests as they would in the wild.

Item# SB-4 4 qt. (4.4 L)
Item# SB-8 8 qt. (8.8 L)
Item# SB-24 24 qt. (26.4 L)

C. FOREST FLOOR™

- 100% natural cypress mulch.
- Provides your terrarium with a natural "forest floor" look while retaining moisture to provide humidity to the enclosure.
- Great for snakes, amphibians, tarantulas or invertebrates, mix with Zoo Med's ECO EARTH® for tropical species of tortoises or box turtles.

Item# CM-4 4 qt. (4.4 L)
Item# CM-8 8 qt. (8.8 L)
Item# CM-24 24 qt. (26.4 L)

D. ECO EARTH®

- ECO EARTH® is a natural coconut fiber substrate that is ideal for all burrowing type animals like; box turtles, tropical tortoises, hermit crabs, salamanders, toads, frogs, tarantulas and invertebrates.
- Excellent for NATURALISTIC TERRARIUMS.
- Increases humidity in your enclosure.
- ECO EARTH® now comes in a compressed "brick" form or "loose fill" pack.

Item# EE-08 Loose
Item# EE-10 One brick
Item# EE-20 Three pack

E. HYDROBALLS®

NATURALISTIC TERRARIUM

- Use as a base layer underneath Zoo Med's ECO EARTH® compressed coconut fiber substrate or other substrate to create an underground water table in Naturalistic Terrariums.

INCREASES HUMIDITY:

- Add water to HYDROBALLS® to create a natural "aquifer" and increase humidity levels for all tropical species!

LIVE PLANTS:

- Provides an excellent substrate for live plant root growth in NATURALISTIC TERRARIUMS.

BUILD A WATERFALL:

- Add a water pump to the HYDROBALLS® layer to create a waterfall and generate water flow through the HYDROBALLS® for optimum filtration.

Item# VC-10 2.5 lb. (1.13 kg)

A. FROG MOSS

- Frog Moss (Also called "Pillow Moss") will come back to life and grow in proper terrarium conditions.
- A beautiful, decorative living moss to accent your naturalistic terrarium.
- Increases humidity in terrariums for all high humidity loving species of reptiles or amphibians.
- Excellent top substrate for Zoo Med's NATURALISTIC TERRARIUMS.

Item# CF3-FM 80 cu in (1.31 cu dm)

B. NEW ZEALAND SPHAGNUM MOSS

- TRUE SPHAGNUM MOSS: The #1 preferred moss for all vivarium applications.
- INCREASE HUMIDITY: Holds more water and stays moist longer than any other type of moss!
- LONG LASTING: Natural compounds in moss prevent it from decomposing in humid environments.
- Excellent top substrate for Zoo Med's Naturalistic Terrariums.

Item# CF2-NZ 0.33 lb. (150 g)
Item# CF3-NZ 80 cu in (1.31 cu dm)

C. TERRARIUM MOSS™

- Completely natural moss cage substrate for amphibians and wetland environment reptiles.
- Great for use in humidity shelters for all types of reptiles and amphibians.
- Excellent for use as an egg-laying and incubation medium for a variety of reptiles.
- Available in 5 sizes including a mini compressed bale size for pet shops or multiple terrariums.

Item# CF2-S 5 gal. (1.31 L)
Item# CF2-M 10 gal. (1.8 L)
Item# CF2-L 15-20 gal. (2.3 L)
Item# CF2-X 30-40 gal. (3.1 L)
Item# CF2-MB Mini Bale (5.62 L)
Item# CF2-B Bale 20 lb. (9 kg)

NEW!

D. ECO CARPET™

- SOFT: Absorbent, non-abrasive carpet for many species of snakes, lizards, tortoises and insects.
- SAFE: Cannot be accidentally ingested by your animals.
- A green product, made from 100% post-consumer recycled plastic bottles!
- Washable and easy to clean.

Item# ET-10 10 gal 10" x 20" (25 x 51 cm)

Item# ET-15 15-20 gal 12" x 24" (30 x 61 cm)

Item# ET-29 29 gal 12" x 30" (30 x 76 cm)

ZOO MED'S RECOMMENDED SUBSTRATE COMBINATIONS

FOREST GROUND COVER

Eco Earth® can be added to either ReptiBark® or Forest Floor™ to add texture and moisture holding properties. These blends create a realistic ground cover that retains humidity and allows animals to retreat under the top layers of substrate.

ODOR ABSORBING®

ReptiFresh® can be added to other substrates to add odor-absorbing properties. Add ReptiFresh® to Excavator® or REPTISAND® for desert terrariums. Add ReptiFresh® to Eco Earth® for tropical terrariums.

HUMID BURROWS

Add water holding properties to Excavator® by adding Eco Earth®. This combo is also a preferred nesting substrate for Uromastix and other desert burrowing species.

TROPICAL SAND (LOAM-TYPE)

Eco Earth® and REPTISAND® are a perfect tropical combination. Eco Earth® will help retain humidity, while REPTISAND® helps create texture that will hold shape for burrowing.

ZOO MED'S NESTING SUBSTRATE COMBO

A combination of Zoo Med's Eco Earth®, Forest Floor™, and REPTISAND® makes the perfect nesting substrate for many species. This substrate combo holds moisture, holds shape, and is a very natural consistency for nest digging.

We use this combination at Zoo Med for all our land tortoise, aquatic turtle, and lizard breeding nesting areas!

SUBSTRATE TOPPERS:

Add any of these substrate toppers to your terrarium to help retain humidity and create a natural looking environment for tropical species. Mosses can be added to burrows and/or shelters of desert terrariums to create a humid retreat similar to that found in nature.

PATENTED

B

C

D

E

A. MAG CLIP®

- Industrial strength MAGNETIC suction cup with Interchangeable clips.
- Never replace your suction cups again!
- Clips hold aquarium (turtle) heaters, filter tubes and airline tubing.
- Patented.

Item# MS-1

B. REPTI RAPIDS™ CASCADING WATERFALL

Natural looking, tranquil sounding waterfall for terrariums 15 gallons and over. Adds beneficial humidity to your terrarium while hydrating, especially those who do not drink standing water. Comes complete with Zoo Med's MICROPUMP 104. Made from foamed urethane which is more realistic looking than plastic or painted cement. Includes ReptiSafe® sample.

Item# RR-20

C. MOTOMISTER™

Motorized Hand Held Mister

- Automatic sprayer-no pumping required!
- Increase humidity in terrariums.
- Two AA batteries included.

Item# HM-20 48 oz. (1.4 L)

D. BIG & LITTLE DRIPPER®

Zoo Med's Drippers simulate natural rainfall and provide humidity for captive reptiles. The Dripper has a folding handle lid that allows you to suspend the dripper above the enclosure. Especially helpful for animals that do not readily drink standing water and instead drink "dew" from leaves (i.e. Old World Chameleons). Our Drippers are available in two sizes, the one gallon "Big Dripper®" and the 70 oz. "Little Dripper®".

Item# BD-1 Big Dripper®
Item# LD-1 Little Dripper®

E. REPTI ROCK RESERVOIR™

A deluxe reptile water dish with a 22 ounce "reservoir" water reserve. The large reserve provides constant fresh water, while the small basin discourages reptiles from fouling their water. Includes an "insect guard" which prevents insects and small lizards from entering the reservoir and getting stuck. Extra wide base prevents accidental tipping and spilling.

Item# RR-10

WATER ACCESSORIES

A

Ready to use! Includes the following items:

- REPTIFOGGER™ base assembly with fog-output control.
- Fully adjustable hose attachment pumps fog into your terrarium.
- One liter bottle and "no spill" valve for easy removal and refilling.
- Flex tubing extends from 10" (25 cm) to 32" (81 cm) allowing for various terrarium sizes and set ups.

PATENTED

A. REPTIFOGGER™

Create a tropical rainforest in your terrarium using Zoo Med's REPTIFOGGER™ Terrarium Humidifier. Dramatic cool mist increases animal comfort, relative humidity, and visual appeal. The REPTIFOGGER™ can be used to increase the overall humidity level in smaller terrariums, or to create a humid "micro climate" in larger terrariums. Use with Zoo Med's HYGROTHERM™ for precise humidity and temperature control in your terrarium!

Excellent for use with tropical and rainforest species of reptiles & amphibians including:

- Chameleons and Anoles.
- Amphibians (including Dart Frogs).
- Geckos (including Crested Geckos & Day Geckos).
- Forest tortoise species (e.g. Red-foot Tortoises, Yellow-foot Tortoises & Hingeback Tortoises).
- Hatchling and juvenile tortoises to prevent pyramiding.
- Box Turtles.
- Hermit Crabs.

Item# RF-10

B. HYGROTHERM™

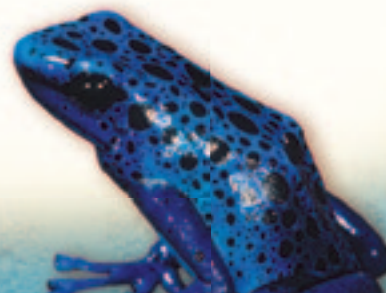

- Humidity and temperature controller in one!
- Controls up to 1000 watts of combined temperature and humidity control devices.
- Great for use with Zoo Med's REPTIFOGGER™.
- Nighttime temperature drop feature controlled by photocell.
- Controls temperature by turning on heating devices in "HEAT" mode or by turning on cooling devices in "COOL" mode.
- Alarm flashes when temperature or humidity reaches extreme high or low levels.
- Built in memory stores settings in case of power failure.
- Temperature control range: 50°F to 122°F (10°C to 50°C).
- Humidity control range: 15% to 95% RH (Relative Humidity).

Item# HT-10

C. HABBA MIST® Automatic Misting Machine

- Programmable misting unit for terrariums, bird cages, aviaries or indoor gardens. Portable – for indoor or outdoor use. Includes AC adaptor, or will run on batteries (4 C batteries, not included).
- Four programmable spray interval settings— every hour, 3 hours, 6 hours, or 12 hours. Four spray duration settings: 15, 30, 45, or 60 seconds.
- Includes adjustable mounting hooks, 4 point suction cup hold down, remote nozzle extension and 6 watt AC adaptor.
- One year warranty.
- Patented.
